

JOSHUA L GESCHWENDT

EXPERIENCE

Rocket · Staff Software Engineer

July 2025 – Present

- Laid the groundwork for Rocket Mortgage's AI-assisted servicing rebuild, building the first pages end to end on its foundational team before more teams scaled it out for nearly 10M clients in six months, not years.
- Keep rocket.com's build, test, and deploy loop fast and trustworthy, giving engineers and AI agents the confidence to move quickly while agents on routines handle the upkeep.
- Mentor engineers and give talks on working effectively with generative AI as Rocket shifts to AI-forward engineering.

Stack: Elixir · Next.js · Node.js · Rust · TypeScript

Rocket Homes · Staff Software Engineer

January 2021 – July 2025

- Led rockethomes.com's move from a homegrown framework to Next.js, cutting errors and lifting Core Web Vitals, SEO, and conversion.
- Defined rockethomes.com's architecture and engineering standards, now the foundation of Rocket Mortgage's servicing app.
- Repeatedly halved deploy and CI times; cut dev-server startup from 2–5 minutes to near-instant.

Stack: Next.js · Node.js · React · TypeScript

Cars.com (Dealer Inspire) · Senior Product Developer

November 2018 – December 2020

- Architected and built the Cars.com and Dealer Inspire chat component, handling millions of messages for thousands of dealerships.
- Established TypeScript standards and architecture for the Conversations platform alongside its principal engineer.

Stack: Node.js · React · TypeScript

BLACK · Senior Software Engineer

August 2017 – November 2018

- Embedded with strategists and designers to audit client systems, then built the software that closed the gaps.

Stack: Elixir · Node.js · React · TypeScript

Varsity News Network · Senior Software Engineer

June 2016 – August 2017

- Migrated the PHP REST API to Elixir with GraphQL, and the AngularJS app to React.
- Built and rolled out a WordPress theme across 1,700+ school athletics sites.

Stack: Elixir · Node.js · PHP · React · WordPress

Springthrough · Applications Developer

November 2014 – June 2016

- Rebuilt Haworth's website and delivered projects for Delphi, Spectrum Health (now Corewell Health), and other enterprise clients.

Stack: AngularJS · C# · Node.js

EDUCATION

Bachelor of Science, Computer Science & Engineering · *Specialization in Mathematics*

Michigan State University, College of Engineering

East Lansing, MI
